

MATHEMATIQUES

Objectif : comprendre le principe de la soustraction

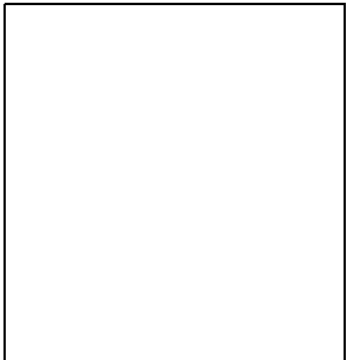

1.  **Calcule** en barrant si nécessaire :

 $6 - 2 = \dots$ 
 $7 - 5 = \dots$ 
 $5 - 4 = \dots$ 
 $4 - 2 = \dots$

2.  **Calcule** en barrant les perles si nécessaire :

 $9 - 2 = \dots$ 
 $6 - 1 = \dots$ 
 $4 - 3 = \dots$ 
 $3 - 1 = \dots$ 
 $5 - 2 = \dots$ 
 $7 - 4 = \dots$ 
 $8 - 6 = \dots$ 
 $6 - 5 = \dots$

3.  **Calcule** en dessinant les jetons si nécessaires.

 $5 - 1 = \dots$ 
 $4 - 2 = \dots$ 
 $8 - 3 = \dots$ 
 $7 - 3 = \dots$
